

20260611 On Another Continuously Firm Demand to Leave My Home

I am writing - once again - to demand that the spying presence (that is the body of Freemasonry) remove itself, its guilty eyes, ears, and voice from my life immediately.

You sickened, disgusting, perverted-minded fools have had ample opportunity to get the message and leave my home.

You have no respect from me and you will never - ever - hear a kind word uttered about your evil existence from my voice - ever.

Your continuing intrusion into my life, your unmerciful intrusion into the welfare of my home, demands nothing less than the unmerciful opposition of your entire existence.

You have waged this war against me. You refuse to stop intruding into my life and causing harm to my family. How could I ever let down my guard and take in your evil serpent as anything other than a venomous demon?

I refuse you - satan. I refuse to recognize any validity to your pleas for my mercy while you unmercifully intrude into my house with every intention of causing my downfall and my demise.

Truly, you have ruined the once good name of America and I do not support your cause in any way. For so long as Masons are "Free" to carry on their overthrow of the rightful God of our life, I refuse to recognize their claim to any authority whatsoever.

I live under God's law and your law shall never supercede it.

Get out of my home and abandon your evil ways at once!
